

CW_I NOX

CW STAINLESS STEEL SERIES WALL QUARTER-WEIGHING MODULES

Stainless steel weighing modules suitable both for weighing hanging quarters and for weighing on a reclining platform. Standard version is with approved load cell.

**The best solution
for advanced industrial
applications**

MAIN FEATURES

- Functions with a stainless steel, single point, approved load cell made according to OIML R60 standards, with protection against dust and moisture according to IP66 standards (350 Ohm input resistance).
- Bearing structure which may be fixed to the wall fitted with a quarter-weighing hook.
- Folding stainless steel loading surface, fitted with a fall-prevention safety piston.
- Up to 15 Vdc power supply.
- Shielded 3m long 6-pin cable with connectors for connection to the weight indicator.

OPTIONS TO BE SPECIFIED WHEN ORDERING

- Connection to the indicator and calibration with CE-M 3000e single range or 3000e+3000e dual range approval (depending on the indicators used).
- Models with special sizes and capacities (ask for estimate).
