MCI MYRIAS

Transportation
MCI INFORMATION

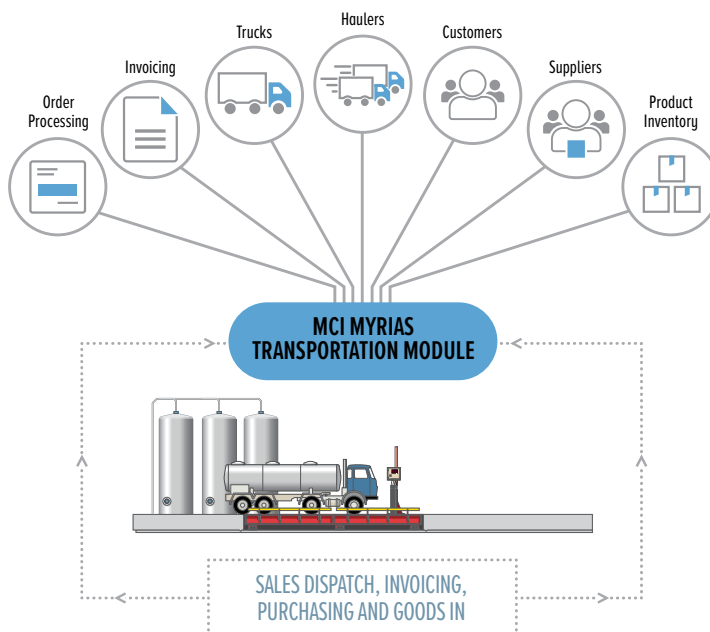

MCI MYRIAS TRANSPORTATION MODULE MAXIMIZES VEHICLE THROUGHPUT WHILE REDUCING THE RISK OF DATA ENTRY ERRORS.

The Transportation module integrates with weighbridges to manage product inventory, haulers, suppliers, customers, order processing, dispatch and invoicing. Vehicle loads can be quickly analyzed for value and traceability.

Myrias captures, monitors and reports weight data empowering enhanced decisions by incorporating scale data.

- *Records load data and empty vehicle weight*
- *Captures vehicle and trailer identifiers*
- *Compatible with a wide range of weighbridge indicators*
- *Multi-axle weighing*
- *Loading bay control and content inventory*
- *Connects to printers, traffic lights, barriers and video cameras*
