DLEGAL

D-LEGAL: LEGAL FOR TRADE APPROVED PROGRAM FOR SAVING WEIGHING OPERATIONS CAPABLE OF EXCHANGING DATA WITH PC PROGRAMS VIA APIs

DLEGAL is a program for saving approved weighing operations. It is a real virtual alibi memory, directly on a PC and without storage limits. With this new software, all data is saved in a legal for trade approved file that can be exported to Excel. It is designed to simplify data exchange with external programs using a comprehensive API package.

The best solution for advanced industrial applications

FEATURES

- Legal for trade approved software, for use in relations with third parties.
- The program interface is the approved scale indicator that can be used for zeroing, setting the tare and saving weighing results.
- Retrievable and exportable weight database in Excel format.
- Virtually unlimited storage memory.
- Keyboard emulation function for entering approved weighing directly where it is needed, on bills, invoices, etc.
- Also available in a version for internal factory use (D-API).

COMMUNICATION APIs

- Zeroing
- Tare
- Manual tare
- Instant weight reading
- Legal for trade approved weighing recording
- Recorded weighing database reading
- Bridge for running any available command (see the protocol of the connected indicator for more information)
